SuperFitting on facial curve  
**SOLUTION-FIT GELATIN MASK**

# Microfiber sheet + Fish gelatin

The solution fit mask sheet can absorb five times the solution compared to the normal sheet mask. It is made of ultra-fine fiber tissue, 1/10th the thickness of the hair, and adheres to the curved skin.

SuperFitting on facial curve  
**SOLUTION-FIT GELATIN MASK**

Microfiber sheet + Fish gelatin

The fish gelatin solution maximizes the effect of the solution absorption principle of the sheet mask and delays the drying of the sheet. As a result, the skin absorption of the solution is maximized.
